Brokerage Crowds Increase.

A considerable increase in the crowds that visit local brokerage houses was noticeable throughout the day. Every one seemed to be expecting a broad general demand for railroad stocks and sharply higher prices from the bullish sentimental influences of the President's signing of the railroad bill, and leaving the railroad labor question to be settled by the special committee as outlined in the bill. Railroad stocks opened a bit stronger than they closed on Saturday.

Millien Tax Queries Daily.

One million questions a day is a fair average of the income tax queries that are answered by the internal revenue offices throughout the country, according to a report issued by the bureau of internal revenue.

Each caller asks an average of two questions. Therefore half a million persons are clearing up doubtful points on income tax every week-day. The "open season" on 1919 income tax closes on March 15.
